

Dear

There are times that words fall so short and this is one of those times. I was unable to think of words to properly express the appreciation we have for the care you provided our mother. End of life is an unusually stressful period especially in such unique times, it gave us great relief that she was with her McPeak's family and not alone in a hospital especially given the fact that we could not be by her side. The only thing that rivals our respect and appreciation for all you do for so many is the personal gratitude that we would like to express!

Best,

Robert S. Budd & Family

Dear firm,

The enclosed message was for your team. To you, an extra appreciation for the love you set for all. I know how difficult it can be to ensure your core values come across in any service; especially difficult in any 24/7 residential model.

From the time mom chose to move to McPeak's instead of with us I anxiously hoped her decision was the correct one. Thankfully it was!

The respectful caring manner in which you treat everyone I believe is the reason.

Thank you for who you are, the tenacity for keeping the 'heart' of what you do alive and living your values in action!

With Gratitude,

R. S. Budd
